Hemp seed oil multiplies the effect of active ingredients for the scalp with seborrhea symptoms

Cloves have the disinfecting effect and eliminate the scalp itching.

Grapefruit seeds eliminate the yeast and fungi overgrowth in the scalp, stabilize the natural pH of the scalp.

Dead Sea salt is rich in minerals content. It supports the regeneration and nourishment of the scalp and also faster healing of already formed scabs in the scalp.

Use of Shampoo: Apply the shampoo on wet hair and lather gently especially on the scalp and in their length. Leave in at least 3 - 5 minutes, then rinse thoroughly.

Using hair serum: Shake well before each use! Break off the top of the ampoule and massage its content gradually and gently in the scalp and along the hairline. Do not rinse! Apply either on washed, towel dried hair or in between the washing for refreshing and soothing the scalp with symptoms of seborrhea. Continue then with the hair care as usual.

Warning: The shampoo is not indicated for infant seborrhea.
