Elasti-Q Original body cream

During the whole pregnancy especially the skin of a constantly growing abdomen is under a great strain. The skin is stretched to the maximum and therefore requires attentive care. Thanks to regular use of the Elastiq Original and Exclusive body creams for prevention of striae you will secure a firm and elastic skin not only during pregnancy, but also after birth.

A body cream for prevention of striae. Striae (also called stretch marks) occur due to excessive stretching of the skin especially in pregnancy. These unattractive small scars appear commonly on the abdomen, hips, breasts, thighs and shoulders. Once they occur it is very difficult to get rid of them completely and without any consequences. The Elastiq Original and Exclusive body creams will secure effective prevention of striae for your skin.

If you have encountered the occurrence of striae before, the anti-striae body cream Elastiq Original will ensure optimal nutrition of your skin, thanks to which striae will be less visible. The Elastiq Original and Exclusive body creams contains a combination of four active substances. Elastin and hyaluronic acid keep your skin firm and elastic. D-Panthenol supports regeneration process of the skin and has healing and soothing effects. Vitamin E acts as an antioxidant.

ELASTI-Q Exclusive body oil

The unique composition is suitable for very sensitive skin: Oil from the seeds of pomegranate moisturizes, nourishes skin and increases its elasticity. It also contributes to the protection from cracking. The seed oil of evening primrose increases the resistance of the skin and strengthens its ability to regenerate. It lightens effectively and smoothes already formed stretch marks in past. The safflower seeds oil is effective against skin aging, hydrates and softens skin. It also contributes significantly to the reduction of stretch marks. The grape seeds oil helps to protect the skin against the harmful effects of the environment and it effectively reduces the formation of stretch marks. The olive oil softens the skin and soothes it after its itching and irritation, which is caused due to stretching of the skin. Vitamin E helps protect the skin from the harmful effect of free radicals.
