IMUNIT OYSTER MUSHROOM 800 mg

with sea buckthorn oil and echinacea

+ **nucleotides** and **selenium** are the most powerful natural products from the premium range **IMUNIT®**, which is characterised by high quality materials and unique processing technologies.

OYSTER MUSHROOM (*Pleurotus ostreatus*)

- It contains amino acids, B vitamins, minerals and trace elements (iron, magnesium, zinc, selenium, chromium, iodine)
- It is a very rich source of beta-glucans

100% sea buckthorn oil

- It contains flavonoids, provitamin D, vitamin A, E and K, minerals, organic acids and unsaturated fatty acids

Echinacea angustifolia (*narrow-leaved purple coneflower*)

- It is among the most beneficial plants of our time
- It contains resins, essential oils, glucose and fructose

Chlorella extract

- It includes nucleotides and oligopeptides that are naturally found in the cells of living organisms

SELEN

- It contributes to the normal function of the immune system
- It contributes to the normal thyroid function
- It contributes to the protection of cells from oxidative stress
- It passively supports active stimulatory effects of oyster mushroom, sea buckthorn, echinacea, nucleotides and oligopeptides

Nutritional values:

The daily dose contains 800 mg of the dried tissue of fruiting bodies of oyster mushroom finely ground, sea buckthorn (extract + oil) 100 mg, floral extract of Echinacea angustifolia 100 mg, dry extract of chlorella (which contains nucleoids and oligopeptides) 12mg, nucleoids and oligopeptides oyster mushroom, selenium (sodium selenite) 100 µg
