

OCUTEIN®

When your eyes are crying for help.

OCUTEIN®

OCUTEIN® BRILLANT Lutein 25 mg

The strongest dose of lutein available on the market - 25 mg!

Why take OCUTEIN® BRILLANT Lutein 25 mg?

- natural product in age-related macular degeneration, inflammatory retinal disorder (retinitis) and cataract^[1,2,3]
- product **with faster onset of protective activity and with longer lasting protection** after discontinuation of its use^[4,5,6,7]
- enriched with phosphatidylcholine increasing the bioavailability and the effectiveness of lutein^[8]

1 capsule contains		RVI – Reference intake
Lutein (contains 3 mg of zeaxanthin)	25 mg	not specified
Vitamin A (retinyl palmitate)	655 µg	81 %
Folic acid	200 µg	100 %
Zinc (zinc oxide)	17 mg	170 %
Copper (copper gluconate)	1 mg	100 %
Selenium (sodium selenite)	26 µg	47 %
Phosphatidylcholine	20 mg	not specified

Dosage: 1 capsule per day

OCUTEIN® GINKGO 45 mg

The only ocular nutrition with 4 categories of nutrients!

Why take OCUTEIN® GINKGO?

- it provides long-term nutrition for the retina and supports the peripheral ocular blood flow, so it is **suitable mainly for patients disposed to arteriosclerosis, hypertension and diabetes** (Ginkgo biloba, omega-3 PUFA)^[9,10,11,12,13,14]
- it reduces the development of inflammatory and degenerative ocular disorders (lutein, zeaxanthin, omega-3 PUFA)^[1,2,3,15,16,17]
- Ginkgo biloba extract synergistically amplifies the effect of lutein, zeaxanthin and omega-3 PUFA

1 capsule contains		RVI – Reference intake
Lutein (contains 1 mg of zeaxanthin)	15 mg	not specified
Standardised Ginkgo biloba extract (24 % flavonoid glycosides and 6 % terpene lactones)	45 mg	not specified
Vitamin A (retinyl palmitate)	628 µg	78,5 %
Fish oil (DHA 250 mg, EPA 36 mg)	360 mg	not specified
Zinc (zinc oxide)	14 mg	140 %
Selenium (sodium selenite)	26 µg	47,3 %
Vitamin C (L-sodium ascorbate)	100 mg	125 %

Dosage: 1 capsule per day

OCUTEIN® FORTE Lutein 15 mg

Shield and nutrition for strained eyes!

Why take OCUTEIN® FORTE Lutein 15 mg?

- for a **long-term maintenance of proper function and quality of vision, when the eyes are excessively strained** (work with a PC, television, driving and others)
- contains 3 categories of important nutrients: OMEGA-3 polyunsaturated fatty acids DHA and EPA, natural CAROTENOID COMPLEX and ANTIOXIDANT COMPLEX

1 capsule contains		RVI – Reference intake
Fish Oil (DHA 250 mg, EPA 36 mg)	358 mg	not specified
Vitamin C (sodium L-ascorbate)	100 mg	125 %
Vitamin E (D-alpha-tocopherol-acetate)	30 mg	250 %
Lutein	15 mg	not specified
Zeaxanthin	3 mg	not specified
Zinc (zinc oxide)	14 mg	140 %
Selenium (sodium selenite)	26 µg	47 %
Copper (copper gluconate)	1 mg	100 %
Vitamin A (retinyl palmitate)	800 µg	100 %
Vitamin B2 (riboflavin)	1,4 mg	100 %

Dosage: 1 capsule per day

When your eyes are crying for help.

OCUTEIN® BRILLANT

TOP

lutein/zeaxanthin Folic Acid fosfatidylcholin

lutein/zeaxanthin (25 mg),
phosphatidylcholine, Folic Acid,
vit. A, Zn, Se, Cu

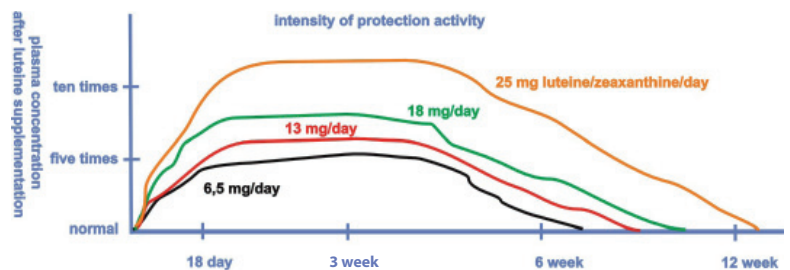

**Improvement of visual
acuity and cataract**

senior,
person with treated
diabetes person
with hypertension

....UPTO80YEARS...

SCHEMATIC DEPENDENCE BETWEEN DAILY DOSE, TIME OF USE, PLASMATIC CONCENTRATION AND PROTECTIVE EFFECTIVENESS OF LUTEIN AND ZEAXANTHIN

The use of the daily dose of 25 mg lutein/zeaxanthin demonstrably faster increases plasmatic and macular concentrations of lutein with the faster improvement of vision and more intensive retinal protection. After discontinuation of use, the protective effect of lutein lasts for a significantly longer time.^[4,5,6,7]

OCUTEIN[®]

SENSITIVE

Moisturising eye drops OCUTEIN[®] SENSITIVE:

provide **instantaneous** relief for irritated, tired and red eyes

enable **all-day** wearing of all kinds of contact lenses without drying out, blurry vision and feeling of cutting in the eyes; and they extend the life of the contact lenses

provide **eye relief** during long drives, reading or watching television, there is no blurry vision after application

One drop,
a sea of comfort.

MOISTURISING EYE DROPS OCUTEIN[®] SENSITIVE

are based on human tears, which ensure their 100% functionality and excellent tolerability

Why choose moisturising eye drop OCUTEIN[®] SENSITIVE?

- They contain **double combination of hypromellose and sodium hyaluronate** – decreases the eye irritability, the drops are washed out from the eyes more slowly and their effect is prolonged
- They are **isosmotic** – the osmotic pressure of drops is similar to that of the lacrimal fluid; the drops have high tolerability, do not irritate and do not cause pain
- They have **antiseptic effects** – they contain 3 constituents with mild antiseptic effect
- **pH and viscosity is ideally set** (pH 6.5-7.8 is not irritating; viscosity 2.0-4.0 mPa.s)
- **Mild astringent effects** – reduces edema and redness of the eye
- They are **sterile** – high pharmaceutical quality

COMPOSITION

Aqua
Boric Acid
Sodium Chloride
Hydroxypropyl Methyl Cellulose
Borax
Disodium Dihydrogen Ethylenediaminetetraacetate
Sodium Hyaluronate
Polyhexamethylene biguanide

FUNCTIONS OF THE COMPONENTS

solvent, moisturising component
antiseptic, astringent component
isotonising component
lubricating, moisturising component
antiseptic component
chelating component
lubricating, moisturising component
antiseptic, preservative component

medical device prostředek

Content: 15 ml
Dosage: 1 drop 3-4 times a day
Applicable 60 days after the first opening
