About Cannaderm

WE ARE THE 1ST COMPANY ON CZECH MARKET USING HEALING HEMP.

Cannaderm entered the Czech market in 2002 as the first company in the Czech Republic manufacturing recipes of skin care products that featured hemp oil as a key ingredient. The quality of the Cannaderm trade mark has been confirmed by the satisfaction of our customers and 9 years of trading success. Since June 2014 all business, marketing and production activities of Cannaderm are managed by the Simply You Pharmaceuticals joint stock company.

HIGH QUALITY OF HAMP

Cosmetics Cannaderm - the seals confirm that the quality is suitable even for very young children, pregnant and breast-feeding women and people with very sensitive skin.

Our key raw material is cold-pressed oil in organic quality that comes from approved, specially selected hemp (*Cannabis sativa*). We use unique features of hemp oil in combination with proven herbal extracts in all ingredients formula of Cannaderm product range.

Every Cannaderm product bears the so-called hemp seal, that indicates the actual amount of hemp oil (or seed extract) used in each product.

The products from the Cannaderm product range marked with the seal - „patent protected“ have ingredients formula based on synergistic combination of bioactive hemp oil and the Siberian fir needles extract.

CERTIFIED NATURAL COSMETICS

For more than 20 years, our customers can choose from a wide Cannaderm product range. From 2011 Cannaderm products are marked by pictogram approval logo CPK - certified natural cosmetics or by „umbrella“ pictogram approval logo CPK bio. These approval marks guarantee environmentally friendly production, packaging and natural origin of the raw materials used in the production process of Cannaderm cosmetics.

Certified natural cosmetics contains:

- no synthetic perfumes and dyes,
- no synthetic preservatives and parabens,
- no raw materials obtained from mineral oil (vaseline, paraffin, mineral oils),
- no genetically modified raw materials,
- no animal raw materials

The basic conditions for obtaining a certificate of natural cosmetics are ecological production, recyclable packaging and quality of natural origin ingredients. Certified natural cosmetics is therefore friendly to our skin and the environment. Natural raw materials processed by using advanced technologies are in accordance with the demands of contemporary beauty care while perfectly matching the skin's natural needs.

In accordance with applicable law there are no cosmetic products tested on animals.

PROGRAM BABE • care for sensitive skin of children

Cannaderm hemp cosmetics introduces special Babe product range which is designed for daily gentle care of sensitive skin of the smallest children.

Why choose hemp cosmetics for children:

The therapeutic effect of hemp oil is mainly due to its rich content of unsaturated fatty acids, linoleic and stearidonic acids. Additionally, it contains chlorophyll, phytosterols, minerals and vitamins. The unique hemp oil is very well absorbed into soft baby skin, it has the ability to harmonize skin cells and to balance hydration, lipid and pH balance. Furthermore, it restores skin's natural protective microfilm and increases skin's resistance to negative effects of the environment. Every mother will also appreciate the fact, that all the products from Babe product range are made from a special variety of technical hemp. It is thanks to its specially fine formulas that it has been awarded with the CPK (Certified Natural Cosmetics) label.

BABE Emoliens (moisturizing cream)
